

Bateaux du SAUT DU DOUBS

2025 RATES

Our COMPANY

Environmentally friendly

Preserving the exceptional site in which we cruise is essential for us.

Our entire fleet sails on GTL, a biodegradable liquefied natural gas. It improves air quality by significantly reducing emissions and it is not harmful to aquatic fauna.

A quality label for tourism

Our company has received the "Qualité Tourisme" distinction which rewards the quality of our welcome and our services.

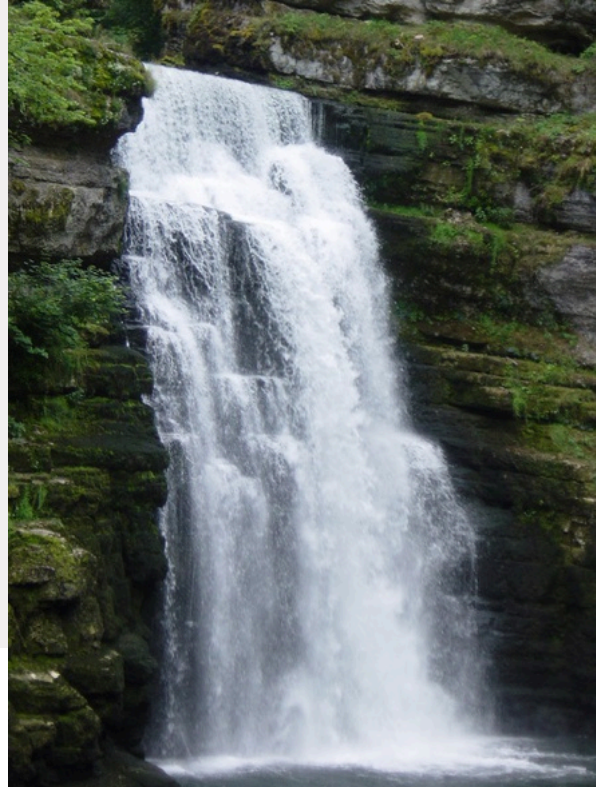

A family company for five generations

My great-great-grandfather, Emile Droz-Bartholet, had a steamboat (photo opposite) that sailed on the Doubs river and enabled visitors to discover the impressive canyons and waterfall. An expertise that has been handed down from father to son/daughter for over a century.

We look forward to welcoming you on board!
Tiffany Droz-Bartholet

Our SIGHTSEEING CRUISES

Sail in the middle of the impressive Bassins du Doubs canyons and stop off to see the Saut du Doubs waterfall, a 27-metre-high waterfall. Embark on an outing in the heart of nature amid breathtaking landscapes!

2H15
approx.
(with stopover)
